Subject: Proposal against HP
Date: Monday, April 23, 2018 1:00:45 PM

Dear Mr. McGovern,

I understand there is an upcoming proposal that Cambridge discontinue contracts with HP Inc. because the company does business with Israel. I urge to reject this proposal. I believe that Palestinian human rights are a vital concern, but I don't think that singling out Israel among all the nations of the globe is the way to improve conditions in this part of the Middle East. With so many countries violating human rights (e.g., Syria gassing its own people, the U.S. holding prisoners with benefit of legal process in Guantanamo), why single out Israel?

Thanks for listening.

Regards,
Marjorie Westerman
